HIGH PROFICIENCY

UNITY

◇ Used extensively during my internship at FunRock and throughout multiple courses and game projects at Futuregames.

UNREAL ENGINE

◇ Primary engine for personal projects, and the two largest game projects at Futuregames.

C++

◇ The language I'm most comfortable with. Used extensively for both professional and personal projects.

C#

◇ Strong proficiency from university, working alongside Unity and software development.

TEAMWORK WITH OTHER DISCIPLINES

◇ Extensive experience working in teams and with other disciplines. Through this I understand how important good communication and a positive team environment are for successful projects. Experienced with Scrum methodology.

HOBBIES

- *Badminton*
- *Bouldering*
- *Playing video games*
- *Reading (especially fantasy and sci-fi)*
- *Listening to music*
- *Hanging out with friends*
- *Traveling and experiencing new cultures (especially food!)*
- *Dogs and Cats!*
